5. Would you like to suggest any topics for future workshops **4.2**

3) Demystify some of the language at the outset
5) Further GLO development
9) Some pre-reading would have helped me in that I had limited knowledge
13) More time to practically work with GLO-maker
16) More please on GLO-maker instructions

6. Any other comments

1) Good opportunity to engage with design of RLOs and use GLO tool. Might have helped to have GLO tool and PC3 presentations on day 1. Definitely need 2 days. Very enjoyable and informative.
2) Really enjoyed the practical aspect
2) It would have been really helpful for me to see the glomaker before this event
3) Very enjoyable. Made a lot of sense on the 2nd day when I could visualise how to make the RLO work
4) Very useful to have protected time for colleagues to get together
5) Very challenging and valuable in the process and objects produced
7) Excellent 2 days - definite 'food for thought'
8) Technical facilities and provision of PCs/laptops could be checked out beforehand
9) Excellent. Worth extending throughout Faculty
12) An extremely stimulating and useful workshop. Lots of fun!
13) Flexible enough to accommodate the varied needs of all the participants
13) Difficult to present works to groups because the pedestals didn't have PCs built in
14) Excellent workshop
15) A really enjoyable two days - lots of learning, sharing and time to network
16) 1. Learned GLO-Maker from scratch - great! 2. Learned about my colleagues' skills and interests. 3. Learned what was going on in the University! And CETL resources. 4. Facilitators great.
