<i>Software available for use in creating RLO</i>																	
<i>Would have liked to know a little more about interoperability standards that RLOs need to conform to</i>																	
 6. Any other comments																	
<i>Thanks .. for a brilliant workshop that has left my head buzzing with even more ideas</i>																	
<i>Very useful and thought provoking session</i>																	
<i>Most enjoyable and informative</i>																	
<i>Very interesting listening to the different ideas for RLOs</i>																	
<i>Good workshop very interesting - well presented and thought out</i>																	
<i>Possibly not necessary to get everyone to introduce themselves at the start</i>
